How to enroll in this program?

1

What is Flutter App Development?

Tired of building two apps for one idea? 

Imagine this: you've poured your heart and soul into crafting a killer app concept.

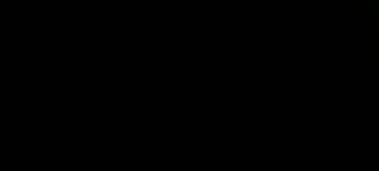

But then reality hits – you need to build it twice, one for iOS and one for Android.

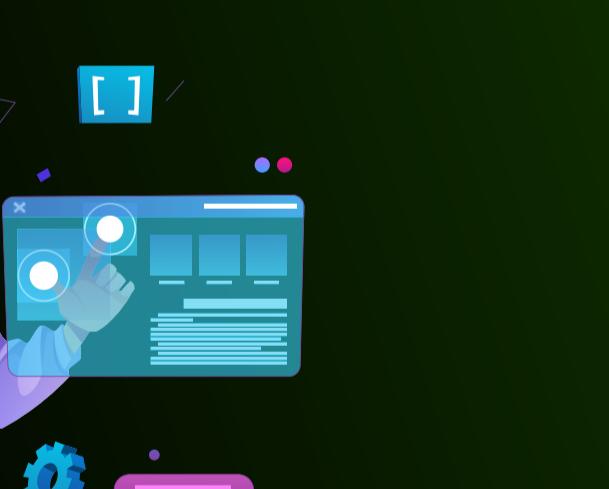

Double the work, double the headache!

Sounds familiar? Well, worry no more!

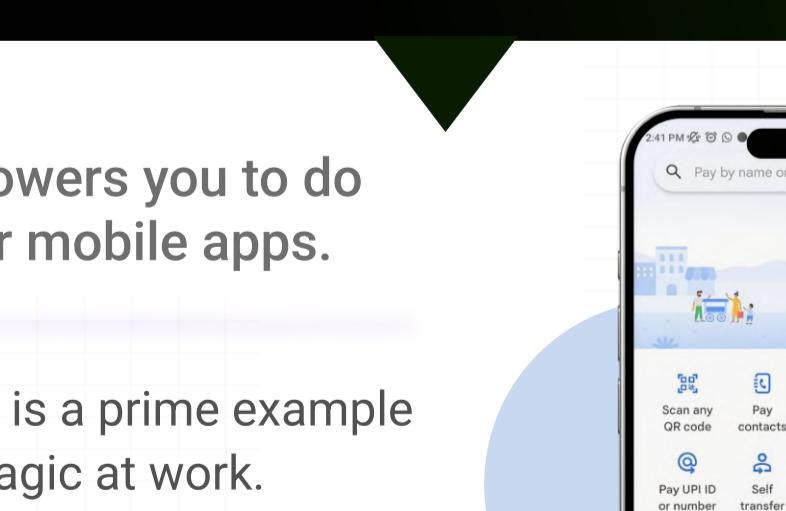

Flutter is here to change the game.

Instead of building separate apps, Flutter lets you create beautiful, high-performance apps that work seamlessly on both iOS and Android – all from a single codebase!

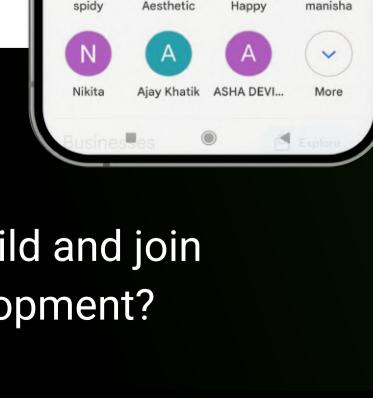

Think of it like this: you're a web developer who builds stunning websites. And, you don't need to code a separate website for each device.

Seems Interesting?

Flutter empowers you to do the same for mobile apps.

 Google Pay is a prime example of Flutter's magic at work.

Ready to ditch the double build and join the future of mobile development?

Our Flutter app development course will teach you everything you need to know to create amazing cross-platform apps!

Why Flutter App Development is a promising career choice?

There has been tremendous rise in the mobile app industry over a couple of years.

As of 2023, over 2 million developers have embraced this framework, indicating a substantial increase in its developer community.

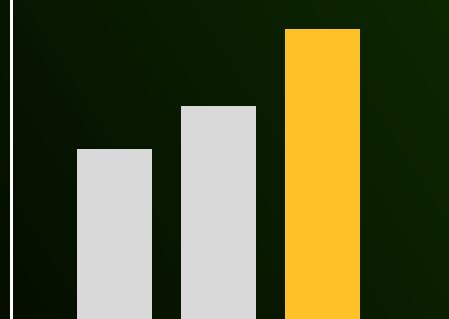

LinkedIn currently lists nearly **5,00,000** Flutter developer positions available worldwide.

The screenshot shows a LinkedIn search results page for 'flutter developer' in India. The search bar shows 'flutter developer' and 'India'. The results section is titled 'flutter developer in India' with '5,00,000' results. It displays several job listings from various companies like Infosys, Fluttermobile Devs, Oneskai, ScaleX, and Thoughtfulviewfinder Services. Each listing includes the company name, location, job title, and a snippet of the job description. There are filters and search options at the top of the results page.

According to '**GLASSDOOR**' the average annual salary of a flutter developer in India ranges from ₹2.5 Lakhs to ₹7.4 Lakhs per annum, depending on experience and skill set.

Average Salary

₹2.5 to ₹7.4 LPA

Source:

The Indian App market's total revenue peaked at **US\$1,608.00** million in 2022, and it is anticipated to increase at a CAGR of 7.13% from 2022 to 2027, with a target market size of **US\$2,393.00 million**.

Grab this opportunity before you miss the wave of endless possibilities!

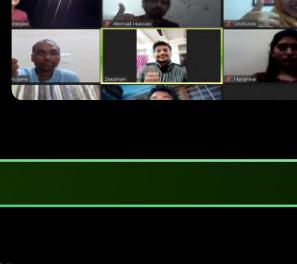

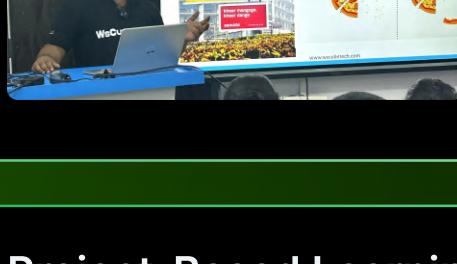

Why should I choose
WsCube Tech?

Your Success is Our Mission

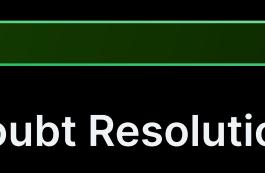

WsCube Tech's Upskilling Pedagogy

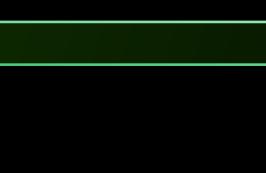

Project-Based Learning

Engage in real-word projects, especially designed to enhance your critical thinking, collaboration, and problem-solving skills.

Multifaceted Programming Challenges

Creating your own OTT Netflix UI

Program Curriculum

Module 2

Basics of Dart

- ✓ Dart Introduction
- ✓ Variables
- ✓ DataTypes and Input Output Dart
- ✓ Nullable Type
- ✓ Functions
- ✓ Looping Statements
- ✓ Class, Object and Constructor
- ✓ Class, Object and Constructor
- ✓ Basic Dart Program

Program Curriculum

85 Live Classes

77 Video Lectures

09 Projects

18 Assignments

13 Cheat Sheet

(3 Live Lectures)

Module 1

Introduction and Flutter Installation

- (Flutter Introduction Demo 1
- (Flutter Introduction Demo 2
- (Running App on Real Device and Creating Virtual Device

- (Setup Flutter & IDE

(2 Video Lectures)

Module 2

Basics of Dart

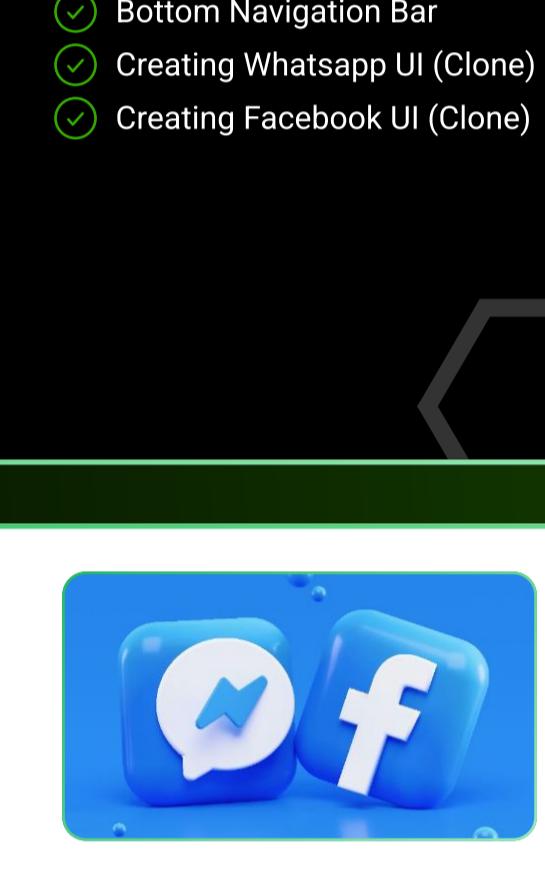

- (Dart Introduction
- (Variables
- (DataTypes and Input Output Dart
- (Nullable Type
- (Functions
- (Looping Statements
- (Class, Object and Constructor
- (Class, Object and Constructor
- (Basic Dart Program
- (Prime No, Armstrong No

- (Inheritance
- (Polymorphism
- (Abstraction and Mixin classes
- (Use of extends, implements and with
- (Basic Keywords
- (High Order Functions

(4 Video Lectures)

Assignment

Multifaceted Programming Challenges

Module 3

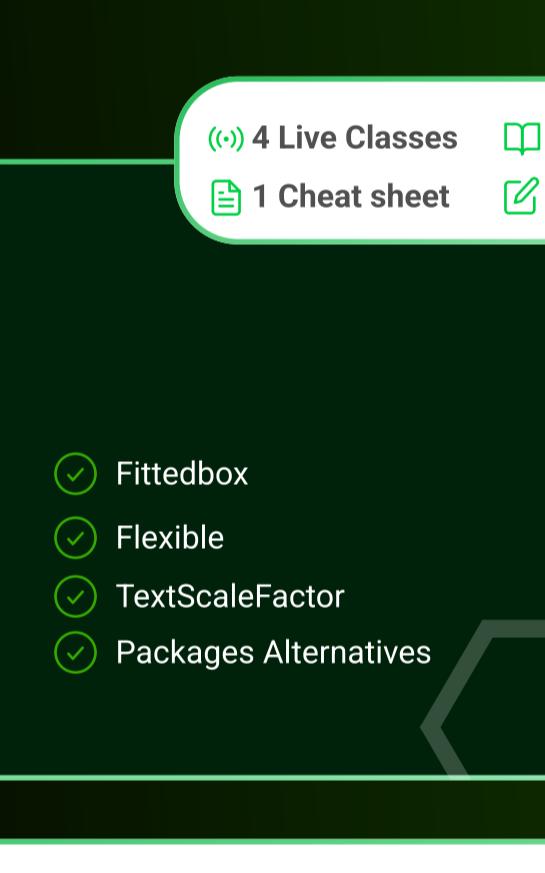

Knowing Flutter Architecture and Lifecycle

- (Stepping into Flutter, Architecture, All About Widgets
- (New Project Create, Intro of Stateless Widget, Explaining main.dart

(2 Live Classes) (1 Test)
(1 Cheat sheet) (1 Assignment)

Assignment

Create your First Flutter Project and running on all devices

Module 4

Flutter Basics UI elements

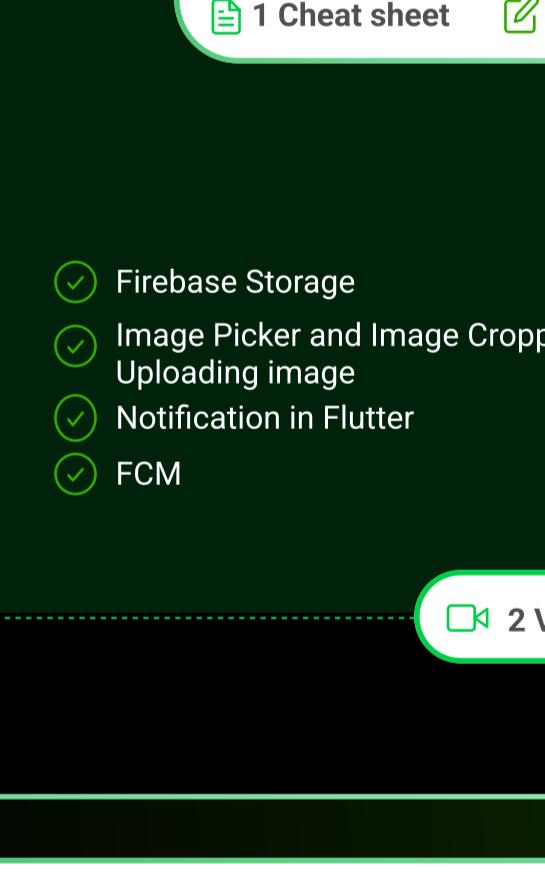

- (Basic Widgets Container, Center, Padding, SizedBox
- (Row and Column, Wrap & SingleChildScrollView
- (Text and Image
- (TextField
- (Buttons & InkWell

- (ListTile and CircleAvatar
- (GridView & Types, GridTile
- (Stack, Positioned, Align, Card
- (Creating your own E-Comm UI (Clone)
- (Creating your own OTT Netflix UI (Clone)
- (Creating your own Wallpaper App UI

(2 Video Lectures)

Assignment

Creating your own OTT Netflix UI

Module 5

Introduction to Stateful Widgets

- (Stateful Widget and setState

- (BMI App and StatefulWidget

(1 Video Lecture)

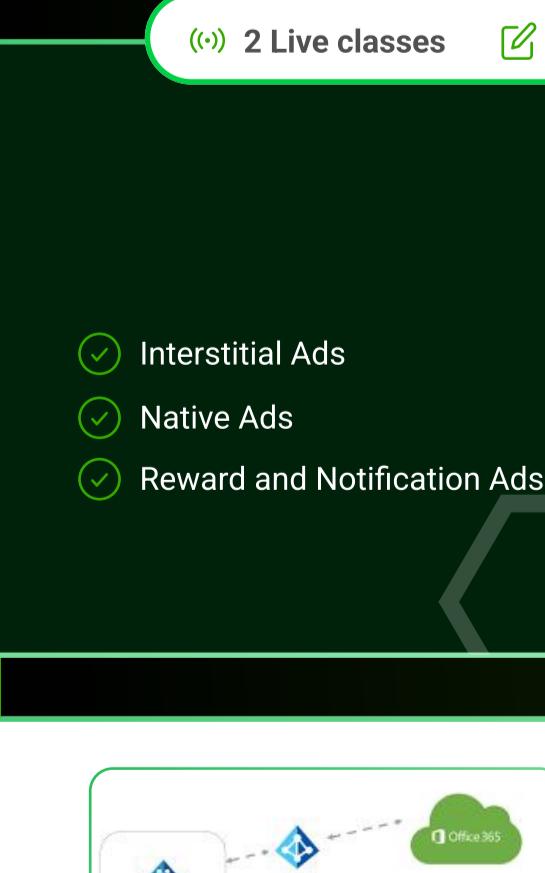

- (Tip Calculator App

- (ListView and Types

- (11 Live Classes) (1 Test)
(1 Cheat sheet) (1 Assignment)

Assignment

Create your First functional App. Build your own Tip Calculator App

Module 6

Creating Multi-Screen App

- (Navigation, Multiple Pages App, pushNamed

- (Splash Screen & Bundle Passing

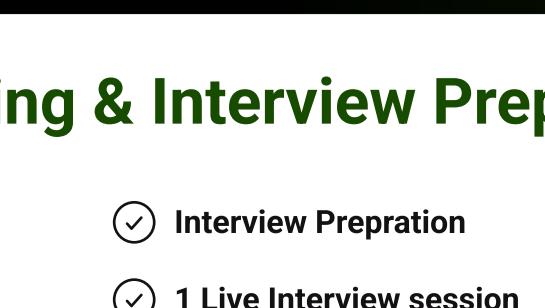

(2 Live Classes)

- (TipCalculator App

- (2 Live Classes) (1 Test)
(1 Cheat sheet) (1 Assignment)

Assignment/ Project

Creating your own Ecomm and Wallpaper App UI

Module 7

Setting up VCS Integration

- (VCS (GitHub) Intro

- (GitHub Practical (Branches, pull, rebase)

(3 Video Lectures)

Assignment/ Project

Complete your own OTT Netflix App managing videos on Firebase and Handing the videos with video player.

Module 8

Adding Animations

- (Animations Intro
- (Implicit Animations Part 1
- (Implicit Animations Part 2
- (Hero, Animation Controller, Listener
- (Tween Animation
- (Animation Builder
- (Lottie Animation
- (Rive Animation

- (AppBar & FloatingActionButton
- (Tab Bar
- (Drawer
- (Bottom Navigation Bar
- (Creating WhatsApp UI (Clone)
- (Creating Facebook UI (Clone)

(2 Video Lectures)

Assignment

Build your First Responsive and Adaptive App UI which can run on different sizes of all platforms.(ex. make WhatsApp app responsive and adaptive)

Module 9

Managing Offline Database

- (Shared Preferences Intro

- (SQFLITE Add Data & Fetch Data

(1 Update and Delete)

- (Database Intro

- (Update and Delete)

(3 Video Lectures)

- (Creating Model and fromMap, toMap

- (Maintaining Session with Shared Pref

- (Drift Package implementation)

(2 Live Classes)

Assignment/ Project

Creating your own complete To Do App managing data in app local DB

Module 10

State Management

- (State Management Intro

- (MultiBlocProvider, BlocBuilder, BlocListener, BlocConsumer, Managing States

(2 Video Lectures)

- (Introduction to Provider

- (Introduction to Bloc)

(1 Managing Events and States)

- (Introduction to Cubit

- (Managing Events and States)

(2 Video Lectures)

Assignment/ Project

Create a complete Expense App managing user expenses and presenting the same with graphs (week wise, month wise, year wise, and Category wise)

- (Navigation, Multiple Pages App, pushNamed

- (Splash Screen & Bundle Passing)

(2 Live Classes)

- (TipCalculator App)

- (2 Live Classes) (1 Test)
(1 Cheat sheet) (1 Assignment)

Assignment/ Project

Creating your own WhatsApp and Facebook App UI

Module 11

Making Adaptive Screen

- (Use of MediaQuery

- (Fittedbox

(1 Flexible)

- (MediaQuery Properties

- (TextScaleFactor)

(1 Packages Alternatives)

- (Using OrientationBuilder

- (Bottom Navigation Bar)

(2 Video Lectures)

Assignment

Build your First Responsive and Adaptive App UI which can run on different sizes of all platforms.(ex. make WhatsApp app responsive and adaptive)

Module 12

Managing Themes & Styles

- (Understanding Styles and Themes

- (Theme Dark and Light

(2 Assignment)

- (Managing App Utils for global access

- (Managing Dark and Light Theme using Provider)
